MAINSTREAM MEDIA IS LYING TO US AND LEADING US STRAIGHT TO DISASTER... WAKE UP AND LEARN THE TRUTH!

Why You Can Trust Corporate Media

Here is a quote from Richard Salent, former President of CBS News, "Our job is to give people not what they want, but what we decide they ought to have." An easy way to see the problem with the current system is to do a little homework. Take a look at the news agencies like Fox News, CNN, ABC, NBC and so on, and you will find out that they are owned by larger corporations such as Disney, GE, and Time Warner. Then look at those larger corporations, and review their political contributions. You end up with a situation where reporters cannot relay any information that could be damaging to their advertisers, their parent companies, or the political parties they endorse. Free Press? Far from it. The current mainstream media system, coupled with the invention of the television, has created the most effective propaganda machine the world has ever known. Never before could an agenda be communicated and believed on such a massive level as it is today. Most people believe things are alright in the world, if the news tells them things are alright. If they want you to fear something, then you will see it over and over again. When the most corrupt and greedy group of individuals controls the largest propaganda machine in human history, CHECKMATE. Control and influence is complete. Your opinions are fed to you. This is why the internet is so important right now as it is our last true "free press". The fundamental underlying architecture of the internet makes it truly "by the people, for the people." Turn off your TV and get on the internet while it is still around, because the truth is leaking out at an incredible pace, and they are currently taking steps to censor the internet.

While the world is distracted by the Olympics, "The Powers That Be" are creating a scenario that could kick off World War III, and they are using the media to lie about the true situation. (Sound familiar? 9/11?) The rest of the world knows that the Georgian military attacked innocent civilians and Russia saved the day. The U.S. orchestrated this ploy to make Russia out to be an enemy, which will make much more sense once the war with Iran begins. Hopefully we can do something to stop the madness first.

There May Be Many Mushroom Clouds in Our Future

The success of the Bush Regime's propaganda, lies, and deception with gullible and inattentive Americans since 9/11 has made it difficult for intelligent, aware people to be optimistic about the future of the United States. For almost 8 years the US media has served as Ministry of Propaganda for a war criminal regime. Americans incapable of thinking for themselves, reading between the lines, or accessing foreign media on the Internet have been brainwashed. Largest Naval Deployment Since 1991 Heads for Persian Gulf

The largest naval deployment since 1991 is unfolding as no less than three U.S. warships make their way towards the Persian Gulf in what observers are calling an "unprecedented" build-up, while Kuwait has activated its highest war alert in anticipation of a potential attack on Iran. SPREAD THE WORD, SAVE THE WORLD.

The Future of the World is in Our Hands

One of the largest problems with our "system" is that Americans have gotten hopeless and lazy. The founding fathers of this country would be disgusted to see what we have become. No longer fighting for our rights, we are all demoralized and burdened with debt, unable to escape the daily grind, left with no energy to resist oppression. The major difference between America and other countries with more rights and freedoms is simple. We fear our government, while other governments fear the people. There are very simple things you can do without having to exert too much energy, and it starts with what you are doing right now. Congratulations, if you are reading this message, then you are already progressing towards a brighter future. It all begins with RAISING AWARENESS. Bringing the darkness to light, exposing the lies, and spreading the word, are all steps that can make a big difference in the battle for our future. Make copies of this flyer, tell your friends, get online and do your own research. This is the mission of ANTI-IGNORANCE.ORG, to spark something within you; to force you to question the reality which has been force fed to you your entire life. **You can make a difference.** Who knows, the next person you tell, could be the person who saves thousands of lives.

Journey to Truth – The 9/11 Truth Movement

Many people are still unaware of the truth behind what happened on September 11th, 2001. People all over the country are gathering and promoting a reinvestigation into the events of that tragic day, as it has become clear that the truth has been covered up and hidden. This obvious conspiracy is serving as a major "springboard" for many people to begin questioning who they have trusted for so long. You can begin by looking at some of the websites listed on the front of this flyer such as 911Truth.org. There are also several full length movies putting all the facts together in plain sight such as "Truth Rising", "Fahrenheit 911", "Loose Change", "Zeitgeist", and "The Reflecting Pool". Here are some of the basics to lead you to the truth:

--WTC Building 7 collapsed 5 hours after the towers fell, into its own footprint, with only minor fires on a few floors.

--All three building collapses have characteristics of a controlled demolition.

--It is scientifically impossible for burning jet fuel to melt the steel columns of the towers.

--A plane did not crash in Shanksville, as there was no plane wreckage.

--The video of Osama Bin Ladins confession was a fake look-alike.

--Proof of insider trading taking place around the disaster, including an insurance policy purchased only months before the attacks.

--The Bush family and Bin Ladin family have ties through the Carlyle Group.

--Countless other facts!!

Lies, Lies, Lies...

Once you truly realize the extent of the lies that we have been exposed to, you may feel overwhelmed. But don't get discouraged, this can be fun! The most important thing you must learn, is that you have a lot to learn. You have to realize that not only is there a massive amount of knowledge out there waiting to be discovered, but you must also question everything you think you already know. Once you realize who has been in control of the mainstream media, our education system, and many organized religions, then you will be able to open your mind to endless possibilities. After personally performing thousands of hours of research on the internet, bookstores, documentaries and interviews, I was amazed to see this beautiful puzzle called "THE TRUTH" fit together perfectly. The plethora of phenomenon and unsolved mysteries can all be explained, with a little due diligence and discernment. There is a middle ground between science and religion, which explains everything the world has ever seen, including: **aliens, UFOs, ghosts, angels, demons, fairies, elves, telepathy, time travel, dreams, dejavu, healing, Atlantis, crop circles, dragons, voodoo, vampires, evolution, Bigfoot, and so much more!!!** Get on the internet while it's still around and learn learn learn!
